

# Takgalang Consulting

## New Team Member Questionnaire (2026)

**Purpose:**

To introduce new team members, highlight real on-site experience, and show how Takgalang operates within live construction environments.

---

### 1. Your Role at Takgalang

**Question:**

What role have you joined Takgalang Consulting in, and what does your role focus on day to day?

**Content use:**

Intro post

“Meet [Name], part of our [CPM / QS / OHS / Concrete Pump] team...”

---

### 2. Your Background in the Built Environment

**Question:**

Briefly describe your background and experience in the construction or built-environment sector.

**Content use:**

Authority positioning

“Our team brings hands-on experience from live sites across South Africa.”

---

### 3. Why You Chose to Join Takgalang

**Question:**

What stood out to you about Takgalang Consulting when you decided to join the team?

**Content use:**

Employer-brand content

“Why our people choose integrated, on-site delivery over desk-based consulting.”

#### 4. What “Being On Site” Means to You

**Question:**

Takgalang operates within live construction environments. What does working on site mean to you professionally?

**Content use:**

Strong positioning post

“Being present on site changes how decisions are made.”

---

#### 5. How Your Role Supports Safe and Efficient Delivery

**Question:**

How does your role contribute to safe, efficient, and well-coordinated project delivery?

**Content use:**

Service credibility

Links CPM, QS, OHS, and concrete pumping to outcomes.

---

#### 6. A Skill or Strength You Bring to the Team

**Question:**

What is one skill or strength you bring that adds value to project teams on site?

**Content use:**

Human credibility

Highlights competence without fluff.

---

#### 7. What Good Site Coordination Looks Like to You

**Question:**

In your experience, what does good coordination on a construction site look like?

**Content use:**

Thought-leadership snippets

Perfect for short LinkedIn text posts.

## 8. Your View on Integrated Site Support

**Question:**

Takgalang integrates CPM, QS, Construction OHS, and concrete pump services. Why do you think this integrated approach matters on real projects?

**Content use:**

Core Takgalang messaging

Reinforces your integrated model through staff voices.

---

## 9. One Thing You're Looking Forward to at Takgalang

**Question:**

What are you most looking forward to as part of the Takgalang Consulting team?

**Content use:**

Positive culture + recruitment

“We’re growing, and our team is growing with us.”
