

## Takgalang Consulting | Concrete Pump Services

Serious projects need serious pumping.

Takgalang Consulting supports residential and commercial builds with reliable pumps, skilled operators, and clean, accurate pours - done right the first time.

Our Concrete Pumping Division delivers speed, precision, and consistency on every site, helping contractors reduce delays, improve safety, and keep schedules moving.

Why builders rely on us:

- Clean, controlled placement for small and large pours
- BOOM & STATIONARY PUMPS operated by trained professionals
- Faster, safer, more consistent results than traditional methods
- A dependable team committed to quality on every pour

At Takgalang, concrete pumping isn't a "nice-to-have" - it's a critical part of delivering better builds.
