

Quality Policy

Takgalang Consulting aim to be the leading provider of multidisciplinary professional services to public and private client, retain existing clients and attract high value public clients by providing project management, quantity surveying and concrete pumping services that are timeous, cost effective and meets socio-economic objectives.

Takgalang Consulting is fully committed to meeting statutory, regulatory and any other requirements applicable to our services and operation. We fully commit to continually improving the quality management system of Takgalang Consulting by monitoring the outputs, streamlining processes and allocating required resources.

This quality policy will be communicated to all Takgalang Consulting employees and contractors who perform work on behalf of this organization. This policy will be shared with all relevant interested parties at their request.

The quality policy will be reviewed annually for continuing suitability and relevance.
